

MINI Connected Services – Legal notices on data protection

The high standard that you associate with the features of our products and services are the guideline we use in handling your data. In doing so, we seek to create and maintain an environment conducive to a trustworthy business relationship with our customers and interested parties. The confidentiality and integrity of your personally identifiable data is especially important to us.

Who is responsible for data processing?

Data processing takes place together with the national sales company BMW Vertriebs GmbH, Siegfried-Marcus-Strasse 24, 5021 Salzburg, Austria, registered at the District Court of Salzburg under number FN 63069, acting in Slovenia through its Slovenian branch BMW VERTRIEBS GMBH, distribucija motornih vozil - Podružnica Ljubljana, having its registered office at Ameriška ulica 8, 1000 Ljubljana, Slovenia, VAT number SI 76371697, registered under number 2246716000 in the companies' register (hereinafter "NSC") and Bayerische Motoren Werke Aktiengesellschaft, Petuelring 130, 80788 Munich, Germany, headquarters and court of registration: Munich HRB 42243 (hereinafter "MINI").

The NSC provides to the customer certain vehicle-based information and assistance services (hereinafter "services") under the designation "MINI Connected" (hereinafter referred to as the "MINI Connected contract") and is the contractual and operational point of contact for the customer.

MINI is responsible for technical provision of the services. Data is transmitted to MINI from the NSC to provide the services and support for the customer.

What data about you is processed and for what purpose?

Data collected in the course of concluding an agreement or rendering services is processed for the purposes listed below:

A. Conclusion of contract (GDPR 6(1)(b))

As part of concluding the contract, the categories of data listed below are processed:

- Contact data (last name, first name, address, e-mail address, etc.)
- Account data (MINI Connected or myMINI login account, bank account, etc.)

The contractual data is deleted automatically 1 year after the agreement expires; financial transactions are deleted after 10 years as stipulated by law.

B. Fulfillment of the contractual obligation for performance of the MINI Connected contract (GDPR 6(1)(b))

For the purposes of fulfilling the MINI Connected contract concluded between you and the NSC, MINI renders a variety of services, such as MINI Intelligent eCall, information services, real-time traffic information, TeleServices, etc.

For performance of these services, the following—potentially personally identifiable—information from the vehicle is processed by MINI and commissioned service providers for such performance:

- Vehicle status information (mileage, battery voltage, door and hatch status, etc.)
- Position and movement data (time, position, speed, etc.)
- Vehicle service data (due date of next service visit, oil level, brake wear, etc.)
- Dynamic traffic information (traffic jams, obstacles, signs, parking spaces, etc.)
- Environmental information (temperature, rain, etc.)
- User profile (configured news, e-mail or audio provider, etc.)
- Sensor information (radar, ultrasonic devices, gestures, voice, etc.)

A complete list and detailed description of the services and the data used in each case can be found [here](#).

The provision of this data is not actually necessary for concluding the MINI Connected contract. Without your provision of such data and the processing of such data, MINI is, however, unable to provide the respective service for you.

The processed personal data is deleted automatically after 4 weeks if it is not needed longer for provision of the specific service.

[MINI login](#)

In order to use the MINI Connected services in their entirety, you also have to register on the MINI Connected portal. Upon registering, you will receive an online customer account that allows you to access additional portals of BMW Group. Further details can be found [here](#).

C. Securing product quality and developing new products (GDPR 6(1)(f))

Beyond mere performance of service, the data collected under B. is also processed for quality assurance in products and services offered by BMW Group and for developing new products and services by MINI. This processing is used for the legitimate interests of MINI to meet the high customer standard placed on existing products and services and to allow the company to fulfill the future requests of its customers through new products and services that have not yet been developed. In order to protect the privacy of our customers, data is processed solely in a manner that cannot be traced back to the customer/vehicle directly.

D. Fulfillment of the sales, service and administrative processes of BMW AG, the national sales company and authorized dealers (GDPR 6(1)(f))

In order to optimize the customer experience and collaboration with MINI distributors continuously, we create evaluations and reports based on information from agreements and we share these evaluations and reports with the applicable MINI distributors. These evaluations are predominantly used for introducing appropriate measures (e.g. training courses for sales personnel) to improve the request and sales process. We will create the aforementioned reports only in an aggregated and anonymized form; this means that the recipients of the reports will be unable to draw any conclusions about you personally.

Portions of the vehicle-specific data collected under B. are used for performance of the service processes (e.g. repair, warranty, goodwill) of BMW AG, the national sales companies and authorized dealers. This processing is within the legitimate interests of MINI to provide our customers with the best possible service process. Processing sometimes also takes place in connection with legal requirements (e.g. repair and maintenance information due to the provisions of anti-trust regulations). Technical data is always processed in relation to the vehicle and without direct connection to the customer in order to protect the privacy of our customers.

The following data categories are used for this:

- Vehicle master data (vehicle type, color, equipment, etc.)
- Vehicle service data (due date of next service visit, oil level, brake wear, etc.)
- Vehicle status information (mileage, battery voltage, door and hatch status, etc.)

The technical vehicle data is deleted at the end of the vehicle life cycle.

The NSC is a company within BMW Group. In part, we process your data in order to make the administration of the various companies within BMW Group as efficient and successful as possible. One of the areas this affects is common group accounting in accordance with international accounting regulations for companies (such as the International Financial Reporting Standards (IFRS)).

E. Customer support (GDPR 6 (1)(b), (g), (f))

The NSCs and MINI partners use your personal data for communication as part of concluding contracts, see above (e.g. booking MINI Connected services) or for the transaction of a request formulated by you (e.g. inquiries and complaints to MINI Customer Support). We contact you regarding all aspects of concluding a contract or processing a request without special permission e.g. in writing, by phone, by messenger services, by e-mail, depending on which contact data you have specified.

F. Marketing communications and market research due to consent (GDPR 6 (1) (a))

If you have given your consent to any further use of your personal data, your personal data may be used and, if necessary, passed on to third parties in accordance with the scope outlined in the consent form, such as for promotional purposes and/or market research. The details in this regard can be found on the respective consent form, which may be withdrawn at any time.

G. Fulfillment of legal obligations of the NSC or MINI (GDPR 13(1)(c) and 6(1)(c))

The NSC will also process personal data if there is a legal obligation to do so. This could be the cause if we needed to contact you because your vehicle is subject to a recall or repair request.

Collected data is also processed as part of safeguarding the operation of IT systems. Safeguarding in this context includes, but is not limited to, the following actions:

- Backup and restoration of data processed in IT systems

- Logging and monitoring transactions to check the specific functionality of IT systems
- Detecting and defending against unauthorized access to personal data
- Incident and problem management for resolving problems in IT systems.

Collected data is also processed as part of internal compliance management, wherein we review aspects such as whether you have received sufficient advising as part of concluding an agreement and whether dealers have complied with all legal requirements.

MINI is subject to a number of additional legal obligations. In order to comply with these obligations, we process your data to the extent needed and pass on this data to the responsible authorities if necessary as part of legal reporting requirements.

H. Data transfer to selected third parties

The data collected under B. can be passed on to a third party electronically at your request. This is used in the fulfillment of other purposes in the relationship between you and the third party, such as concluding a usage-related insurance policy for your vehicle. You can find more information at <https://www.mini-connected.com/>.

MINI provides the data collected under B. to third parties in anonymized form for the purposes of using resources such as mobility services, maps and tools, especially in combination with highly automated, fully automated and autonomous driving.

How long do we store your data?

We save your personal data only for as long as the specific purpose requires. If the data is processed for several purposes, the data is deleted automatically or saved in a form that cannot be traced directly back to you once the last specified purpose has been met.

How is your data stored?

We store your data in accordance with the state of the art of technology. The following security measures serve as an example of the measures applied to protect your personal data from misuse or other unjustified processing:

- The availability of access to personal data is restricted to just a limited number of authorized persons for the specified purposes.
- Collected data is transferred only in encrypted form.
- Sensitive data is also saved only in encrypted form.
- The IT systems for processing the data are compartmentalized from other systems, e.g. to prevent hacking.
- In addition, access to these IT systems is monitored continuously in order to ward off and detect misuse early.

To whom is the data passed and how do we protect it along the way?

MINI is a global company. Personal data is processed by MINI employees, national sales companies, authorized dealers and by service providers we have commissioned, with preference given to those within the EU.

If data is processed in countries outside the EU, MINI uses EU standard agreements, including suitable technical and organizational measures, to ensure that your personal data is processed in accordance with the European level of data privacy. If you want to access the actual protections for data transfer to other countries, please contact us using the communications channels specified below.

The EU has already established a comparable data privacy level for some countries outside the EU, e.g. Canada and Switzerland. Due to the comparable data privacy level, data transfer to these countries does not require any special approval or agreement.

How can you review and change your privacy settings?

You can review and/or change privacy information at any time in the MINI Connected portal. These changes are automatically synchronised in your vehicle. Depending on the vehicle model, you can also access a corresponding privacy menu in your vehicle in which you can also change these settings.

Contact details, your rights as a data subject and your right to lodge a complaint with a supervisory authority

In the event of questions regarding our use of your personal data, please start by contacting MINI customer support, either by e-mail info.si@mini.com or by phone at +386 1 8888 208 (from Monday to Friday, 8:00 AM – 6:00 PM).

As persons affected by the processing of your data, you can assert certain rights in accordance with the GDPR and in accordance with other applicable data privacy provisions. The following section contains explanations regarding your rights as a data subject in accordance with the GDPR.

Rights as a data subject

In accordance with the GDPR, you specifically have the following rights as a data subject in relation to MINI:

Right of access by the data subject (GDPR Article 15): At any time, you can request information about the data that we have about you. This information includes the data categories processed by us, the purposes for which we process it, the source of the data if we did not collect it from you directly and, where applicable, the recipients to which we have transferred your data. You can obtain from us one free copy of your data that is part of the agreement. If you are interested in additional copies, we reserve the right to charge you for any additional copies.

Right to rectification (GDPR Article 16): You can request that we rectify your data. We will take appropriate measures to maintain, based on the latest information available to us, the correctness, completeness, timeliness and relevance of the data we have and continue to process regarding you.

Right to erasure (GDPR Article 17): You can request that we erase your data if the legal requirements exist for doing so. In accordance with GDPR Article 17, this could be the case if

- the personal data is no longer necessary in relation to the purposes for which it was collected or otherwise processed;
- you withdraw your consent on which the processing is based and where there is no other legal ground for the processing;
- you object to the processing of your data and there are no overriding legitimate grounds for the processing, or you object to data processing for direct marketing purposes;
- the personal data has been unlawfully processed

if such processing is not necessary

- for compliance with a legal obligation that requires that we process your data;
- especially with respect to retention periods required by law;
- for the establishment, exercise or defense of legal claims.

Right to restriction of processing (GDPR Article 18): You can request the restriction of processing of your data by us if

- you contest the accuracy of the personal data for a period enabling us to verify the accuracy of the personal data;
- the processing is unlawful and you oppose the erasure of the personal data and request the restriction of its use instead;
- we no longer need your data but you require it for the establishment, exercise or defense of legal claims;
- you have objected to processing pending the verification whether our legitimate grounds override yours.

Right to data portability (GDPR Article 20): Your data shall, where technically feasible, be transmitted to another responsible party at your request. This right shall be available to you only insofar as data processing is based on your consent or is necessary in performance of an agreement. Instead of receiving a copy of your data, you can also request that we transfer the data directly to another controller that you specify.

Right to object (GDPR Article 21): You can object, on grounds relating to your particular situation, at any time to processing of your personal data if data processing relates to your consent or to our legitimate interests or to those of a third party. We will cease processing of your data in such a case. The latter shall not apply if we can demonstrate compelling legitimate grounds for the processing which override your interests or we require your data for the establishment, exercise or defense of legal claims.

Periods for fulfillment of rights as a data subject

We always make an effort to comply with all requests within 30 days. This period, however, may be prolonged for any reason relating to the specific right of a data subject or the complexity of your request.

Information restriction for fulfillment of rights as a data subject

In certain situations, we may be unable to provide you with any information about any of your data due to legal requirements. If we are required to decline a request for information in such a case, we will promptly notify you of the reasons for the refusal.

Complaints to supervisory authorities

BMW AG takes your rights and concerns very seriously. If you feel that we have not duly addressed your complaint or concern, you have the right to lodge a complaint with a responsible data protection authority.

Valid as per: November 2018

MINI Connected Services - General Terms and Conditions

1. MINI Connected Services and MINI Connected Agreement

1.1 BMW Vertriebs GmbH, headquartered in Salzburg, a company incorporated under Austrian law, having its registered office at Siegfried-Marcus-Strasse 24, 5021 Salzburg, Austria, registered at the District Court of Salzburg under number FN 63069, acting in Slovenia through its Slovenian branch BMW VERTRIEBS GMBH, distribucija motornih vozil - Podružnica Ljubljana, having its registered office at Ameriška ulica 8, 1000 Ljubljana, Slovenia, VAT number SI 76371697, registered under number 2246716000 in the companies' register (hereinafter "MINI"), shall provide the customer with vehicle-related informational and support services (hereinafter "Services") known as "MINI Connected," as defined by these General commercial Terms and Conditions of usage (hereinafter „commercial terms“).

1.2 The current version of these General Terms and Conditions can be reviewed, saved and printed at any time at www.mini.si. Any changes to these General Terms and Conditions shall be published no later than six weeks before their intended effective date, and communicated to the customer to the extent that MINI is able to contact the customer. If the customer has agreed an electronic communication channel with MINI (e.g. via the MINI Connected customer portal "My MINI Connected"), the changes can also be reported via this channel. The General Terms and Conditions shall become part of the Agreement as long as the customer does not object before the planned date when the changes are to take effect.

1.3 In order to provide the customer with the Services, a MINI Connected agreement must be concluded between the customer and MINI. The MINI Connected agreement represents the framework agreement between MINI and the customer; by itself, without booking individual Services, it shall not constitute an acceptance or payment obligation for the Customer. However, based on this framework agreement, the customer is entitled to use the basic MINI Connected Services as laid down in the Description of the Services (Point 2.1). The basic MINI Connected Services include in particular the "Intelligent Emergency Call", if available. Additional MINI Connected Services under the MINI Connected agreement (depending on the selected vehicle equipment) may be booked upon purchasing the vehicle, or retroactively through the MINI Connected Store.

1.4 If the customer orders a new MINI vehicle from a seller (authorized MINI dealer or MINI branch) that features necessary standard or optional equipment for a specific Service, the customer shall simultaneously offer to conclude a MINI Connected agreement with MINI for the use of this Service.

- a) If the respective Service is part of the standard equipment for the new MINI vehicle, the MINI Connected agreement shall be concluded between the customer and MINI at the same time when the purchase agreement for the new MINI vehicle is concluded between the customer and the seller.
- b) If the respective Service is exclusively part of the optional equipment for the new MINI vehicle, the customer shall be bound to his/ her offer to conclude the MINI Connected agreement only from such time when the customer can no longer deselect the optional equipment ordered for the new MINI vehicle. The MINI Connected agreement shall be concluded between the customer and MINI when the Service is activated by MINI upon initial registration of the new MINI vehicle.

1.5 If the customer decides not to use the MINI Connected Services, and if the built-in SIM card in the vehicle is deactivated at the customer's request before the new vehicle is handed over, this shall be considered a withdrawal from the MINI Connected agreement concluded as per Point 1.4.

1.6 If no MINI Connected agreement is concluded between MINI and the customer as per Point 1.4, the customer can conclude a MINI Connected agreement for any vehicle owned by the customer or provided for the customer's long-term use by the respective owner that has the corresponding standard or optional equipment, according to the following requirements:

- a) If the customer's vehicle is technically capable of receiving a security code, the customer can assign the vehicle to his/her account in the "My MINI Connected" customer portal. In order to successfully assign the vehicle, the customer shall be asked to enter the security code received by the vehicle into the "My MINI Connected" customer portal. By confirming and entering the security code received in the vehicle into the customer portal under "My MINI Connected", the customer offers the conclusion of a MINI Connected agreement. The MINI Connected agreement between MINI and the customer shall be concluded at the time when the customer's vehicle appears as available under "My MINI Connected".
- b) If the customer's vehicle is not technically capable of receiving a security code, the customer shall request the conclusion of a MINI Connected agreement with MINI by submitting a properly completed identification form, which is provided to the customer after entering the necessary data when adding the vehicle under "My MINI Connected." The MINI Connected agreement between MINI and the customer shall be concluded at the time when the customer's vehicle appears under "My MINI Connected" as an available vehicle.

1.7 In all of the abovementioned cases (Points 1.4), the customer waives the need for a separate declaration of acceptance.

2. MINI Connected customer portal and the MINI Connected Store (if available)

2.1 At the web address <https://www.mini-connected.com>, MINI provides the customer with the MINI Connected customer portal, "My MINI Connected," and the "MINI Connected Store" as defined in these General Terms and Conditions. Use of "My MINI Connected" and the "MINI Connected Store" is free of charge for the customer.

2.2 Before using "My MINI Connected" and the "MINI Connected Store," the customer must first set up a user account and register with a user name and password. The customer can use the resulting account not just for "My MINI Connected," and the "MINI Connected Store," but also for other MINI offerings such as various apps, as defined by the respective Service.

2.3 The customer can use "My MINI Connected" to review which Services have been activated for the vehicle, and to manage these. In order to do so, the customer's user account must be linked to the vehicle for which the customer booked the Services and for which the Services will be used. To create this link, the customer must provide MINI with the vehicle identification number and customizable identification features, using "My MINI Connected."

2.4 Depending on the availability and equipment for the respective vehicle, the customer can order fee-based as well as free Services from either the user interface in the vehicle or from "My MINI Connected" in the "MINI Connected Store" area.

2.5 Ordering fee-based or free Services from the "MINI Connected Store" requires the conclusion of a MINI Connected agreement (as per Points 1.4 and 1.6); in addition, the customer must be registered in "My MINI Connected," the customer's vehicle must be linked with his/her user account, and the address and payment details must be entered.

3. Description, term and availability of the Services

3.1 The scope of the individual Services, their terms and availability are described in detail during the booking process as well as at www.mini.si (hereinafter "Description of Services"). MINI shall specify the costs for these Services individually, or jointly in the context of the ordering process for multiple Services.

3.2 The term of the MINI Connected agreement as per Point 1.3 is open-ended. The term for other Services booked in addition to the basic Services shall be based on the respective Description of Services. In general, a fixed-term, fee-based Service shall have a maximum term of two years and shall be automatically extended by a maximum of one additional year unless the customer terminates it with six weeks' notice to the end of the agreed term.

3.3 The Services are provided via a SIM card installed in the vehicle. Consequently, the Services are to some extent geographically limited by the reception and transmission range of the communication station operated by the respective network operator, and can particularly be impaired by atmospheric conditions, topographical circumstances, the vehicle's position, and obstacles (e.g. bridges and buildings). In addition, the provision of Services requires the mobile communication network needed for the installed SIM card to be functional and ready for operation.

3.4 Disruptions in service may result from force majeure, including strikes, lockouts and official requirements, as well as on the basis of technical or other measures, for instance as performed on systems belonging to MINI, suppliers of transit data or the network operator to ensure proper operations or to improve service (e.g. maintenance, repairs, system-related software updates, expansions). Disruptions in service may also result from short-term capacity shortfalls caused by demand peaks for the Services, or from disruptions in third-party telecommunications systems. MINI shall take all reasonable efforts to rectify such disruptions immediately or to work towards their rectification.

3.5 The customer can inform MINI Customer Service (see Point 7) about any disruptions in service.

3.6 MINI reserves the right to modify the scope of a Service if and to the extent that this modification is reasonable for the customer with regard to the total scope of the agreed Service. In the event of a further modification of the scope of a Service that can be reported to the customer in writing or via an electronic communication path (e.g. via "My MINI Connected"), the customer can extraordinarily terminate this Service within six weeks of receiving the change notification, and have it deactivated free of charge via the MINI Connected Hotline (see Point 7).

4. Using the Services

4.1 The customer may not use the Services for illegal purposes, and shall ensure that third parties do not do this either. The customer is not authorized to share the data and information received in the context of using the Services with third parties for commercial purposes, or to further process these.

4.2 The customer shall bear the costs of any misuse of the Emergency Call service.

4.3 The MINI Connected agreement between MINI and the customer, as well as the Services booked by the customer, are linked to the vehicle and cannot be transferred to another vehicle or be used in another vehicle.

5. Deactivating the Services, terminating the MINI Connected agreement

5.1 The customer can have the SIM card installed in the vehicle deactivated at any time by an authorized MINI retailer, a MINI branch or an authorized MINI repair shop. Deactivating the SIM card deactivates all of the booked MINI Connected Services, including the basic Services. Deactivation will also cause the Intelligent Emergency Call function in the vehicle to be deactivated, if available. The "Legal Emergency Call", cannot be disabled at the request of the customer.

5.2 MINI and the customer can terminate the MINI Connected agreement (to the extent that an open-ended term applies to this agreement as per 2.2) as well as any open-ended Service at any time, with six weeks' notice. Otherwise, for fixed terms, termination is possible with six weeks' notice to the end of the term if the term would otherwise be automatically renewed, by stating the lack of will to continue the agreement.

6. Sale or permanent transfer of the vehicle

6.1 The customer is not entitled to transfer its existing MINI Connected agreement with MINI to a third party without MINI's permission. This also applies in the event that the customer sells or transfers the vehicle.

6.2 In the event of a sale or permanent transfer of the vehicle to a third party, the customer shall ensure that all personal data saved in the vehicle have been deleted. In addition, the customer must remove the link between the vehicle and the customer's user account via "My MINI Connected."

6.3 The customer must inform the third party to whom he/she is selling or transferring the vehicle about all active and deactivated services.

6.4 In the event of a sale or transfer for a long-term use of the vehicle to a third party, the customer shall also have the right, in addition to the termination option as per point 4.2, to terminate a fixed-term Service with six weeks' notice. If the customer terminates a fixed-term Service before the end of the term, the price already paid for this Service shall not be refunded on a pro rata basis.

7. Cancellation right for consumers

If the customer is a consumer in the sense of Article 1, paragraph 2 of the Slovenian Consumer Protection Act, the customer shall have a 14-day cancellation right in the event of a distant contract conclusion. According to Slovenian Consumer protection Act, a consumer is any natural person who enters into a legal transaction for a purpose that is neither connected directly with his trade nor business or profession.

The following section informs the customer about this cancellation right:

Cancellation policy

Cancellation right

You have the right to cancel this contract within fourteen days without any explanation.

The cancellation period is fourteen days from the date when the contract is concluded.

In order to exercise your cancellation right, you must inform us (BMW Vertriebs GmbH, registered office at Siegfried-Marcus-Strasse 24, 5021 Salzburg, Austria, acting in Slovenia through our Slovenian branch BMW VERTRIEBS GMBH, distribucija motornih vozil - Podružnica Ljubljana, registered office at Ameriška ulica 8, 1000 Ljubljana, Slovenia, , tel. +386 1 8888 208, email: info.si@mini.com) via an unambiguous declaration (e.g. a letter sent by mail, fax or email) of your decision to cancel this contract. You may use the attached sample cancellation form, but this is not required.

You are considered to be within the cancellation period as long as you send the notice exercising your cancellation right before the end of the cancellation period.

Consequences of cancellation

If you cancel this contract, we must refund all payments we received from you – including delivery costs (with the exception of additional costs resulting from your choice of a type of delivery other than the cheapest

standard delivery we offered) – immediately, at the latest within fourteen days after we receive the notice of your cancellation of this contract. We shall use the same payment method to refund the payments that you used for your original transaction, unless explicitly agreed otherwise with you. Under no circumstances shall you be charged fees for this refund.

If you requested the Services to start during the cancellation period, you must pay us an appropriate amount that corresponds to the share of Services already provided by the time you informed us that you would be exercising the cancellation right for this contract, in relation to the total scope of Services described in the contract.

Sample cancellation form

(If you wish to cancel the contract, please complete this form and send it back to us.)

To BMW Vertriebs GmbH, acting through its Slovenina branch BMW Vertriebs GmbH - Branch Office Ljubljana, BMW Customer Support ConnectedDrive, Ameriška ulica 8, 1000 Ljubljana, email: info.si@mini.com:

- I/we (*) hereby cancel the contract that I/we (*) concluded with regard to the purchase of the following goods (*)/the provision of the following Service (*) –
Ordered on (*)/received on (*)
- Name of the consumer(s)
- Address of the consumer(s)
- Signature of the consumer(s) (only for notifications on paper)
- Date

(*) Please strike out where not applicable.

8. Contact

MINI Customer Service can be reached by email at info.si@mini.com.

The MINI Connected Hotline is available from Monday to Friday from 8 am to 6 pm on the phone number +386 1 8888 208.

9. Liability

9.1 Within the legal stipulations, MINI does not assume any liability for the accuracy or up-to-date nature of data and information provided about the Services.

9.2 Within the legal stipulations, MINI shall not be liable for the consequences of disruptions, interruptions and functional impairments to the Services, particularly the cases described under 2.3 and 2.4.

9.3 In the event of slight negligence, MINI shall only be liable if significant contractual obligations (cardinal obligations) are violated, for instance those imposed upon MINI in terms of content and purpose or the fulfilment of which allows the contract to be properly executed and upon the fulfilment of which the customer regularly relies and may rely. This liability is limited to the typical foreseeable damages at the time when the contract is concluded.

9.4 The personal liability of MINI's statutory representatives, vicarious agents and employees for damages that they cause through slight negligence is also limited to the scope described in the above section.

9.5 MINI's liability in the event of a defect being fraudulently concealed, shall remain unaffected hereby. Liability limitations shall not apply in the event of intent, gross negligence, or a loss of life, bodily injury or damages to health.

9.6 The rights of consumers are in no way affected by this Article. A consumer may claim his/her rights in relation to a material defect (Articles 37. – 40 of the Slovenian Consumer protection Act).

10. Data processing and data privacy

10.1 Data entered by the customer in the context of “My MINI Connected” or the “MINI Connected Store” is automatically encrypted using the SSL protocol (Secure Sockets Layer protocol). SSL is the industry standard for transmitting confidential data via the internet.

10.2 MINI shall collect, save and use personal data provided by the customer within the scope of the statutory provisions, to the extent that this is necessary for establishing, designing the content of or modifying the contractual relationship, and for using as well as invoicing the Services. Details about the processing of personal or vehicle related data within the scope of the individual Services can be found in the Description of Services and at www.mini.si.

10.3 The customer shall immediately report to MINI any changes to his/ her personal data that will affect the contractual relationship and the invoicing of the Services.

10.4 Usage data required for proper invoicing of the Services (invoicing data) may be saved and used by MINI after the end of the usage transaction until the invoicing is completed. Where necessary for the purpose of discovering and preventing the improper use of Services, customer and transaction data may be processed and also saved after the end of the usage transaction, where applicable.

10.5 Data obtained from the use of the Services may also be analyzed for quality control purposes, but only in completely anonymous form.

11. Place of jurisdiction and applicable law

11.1 A court in Ljubljana shall have exclusive jurisdiction for claims resulting from relations with entrepreneurs. Jurisdiction for claims resulting from relations with costumers shall be set in accordance with general provisions of law

11.2 All disputes arising from or on the basis of this contractual relationship shall be subject to Slovenian law, to the exclusion of the UN Convention on Contracts for the International Sale of Goods (CISG). This choice of law shall only apply to the extent that it does not deprive the consumer of any binding applicable consumer protection regulations in the state where the consumer has his/her usual place of residence at the time of the order.

Rev.: November 2018

Austria, Belgium, Bulgaria, Czech Republic, Denmark, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Netherlands, Poland, Portugal, Romania, Russia, Slovenia, Spain, Sweden, Switzerland, United Kingdom

How-to deactivate

You can have the BMW ConnectedDrive / MINI Connected basic services deactivated through an authorized BMW or MINI dealer, a BMW / MINI subsidiary or a BMW / MINI authorized workshop at any time. Deactivation of these Services also deactivates the vehicle's built-in SIM card. This also has the consequence that the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via “My BMW ConnectedDrive” / “My MINI Connected”.

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018 only relevant for BMW and BMWi) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.
